Experts at getting your licenses at preferred rates... from copyright holders anywhere in the world!

Digi Research Advisors research worldwide sources to identify copyright holder(s) ... and we can interface with your system to import items

Grant Rights Values are coded using DRDL in our "State-of-the-Art" Digi-Track Rights Management System to Identify Rights and enable Re-use (if applicable)

Permissions Requests are sent automatically via – Digi-EXpress®, On-line, FAX, E-mail or Postal Service... and we process utilizing "best-practice" workflow systems to get results!

1-click Instant Access enables authorized staff to VIEW and PRINT Grants ... avoiding delays and reducing paperwork!

Digi Permissions Advisors negotiate with sources to obtain most 'preferred rates' for your permission grants

Management Visibility Digi-EXpress® provides real-time on-line access and reporting to track metrics, budgets, schedules and credit lines... and we can interface with your backoffice systems!

Benefits

Digi-Rights® staff works with advance technology. We connect you to a global network of Sources and Rightsholders to speed-up research, acquire permissions and capture 'usage rights' in a Digi-EXpress® Gateway. We negotiate on your behalf to save money on licensing fees. You get instant on-line access to view project status and print licenses... from anywhere 24/7!

Stop wasting time and money on manual perm logs, spreadsheets and labor-intensive processes that consume valuable resources.

Our Digi team uses 'best practice' automated systems... to clear copyrights and acquire permissions. We are experienced in negotiating the **lowest fees** for your licenses from rightsholders worldwide.

We can work seamlessly with your existing systems! Using a patent-pending **Digi Data eXchange (DDX)** mapping process, we seamlessly integrate with your existing legacy systems... transforming data from your spreadsheets or systems... into our advanced Digi-EXpress system... and at key project milestones... reversing the Data eXchange back to your fulfillment and accounting systems! We are compatible with **XML, CSV files and Excel** spreadsheets!

Reviews

"Web-based accessibility makes it easy to get into the system whether working internally or externally from any computer and all times of day". *Sr. Rights Manager*

"The ability to view Request Letters and Permissions Grants in the system is advantageous for real time checks as well as serving an efficient, paperless workflow." *Permissions Rep*

"Instant Messaging is a huge perk since we have the ability to get updates in real time. This also cuts down on the amount of emails that are necessary, which saves our inboxes from an influx of project-by-project issues" *Permissions Advisor*

Digi-Rights uses 'Best-Practice' Automated Processes to manage and track your license and 'usage rights'

Content elements are tracked from Source Requests... to Responses and Capture Licenses, Usage Rights and Credit Lines

"Usage Rights" are captured in 5 categories for cataloging... archival, search and re-use

Source data is automatically **verified** against a Global Registry of Content Providers

1-click to Print Grants and License paperwork

Tabs are color coded to indicate any **exceptions** from requested usage rights or terms
